

STEERING
WHEEL
PULLER
T67L-3600-A

A detailed technical line drawing of a vehicle chassis, viewed from a top-down perspective. The drawing shows the front and rear suspension systems, including wheels, tires, and various mechanical linkages. Two specific components are highlighted with callout lines: a steering wheel puller on the front left wheel hub and a crankshaft vibration damper and pulley on the front left crankshaft. The drawing is rendered in black lines on a white background.
